Dear Commissioners:

I support the merger between SCANA and Dominion Energy. This combination would be good for the state's economic growth at a time where it has been halted due to uncertainty.

Dominion Energy has a long and successful history of providing electricity and natural gas to customers in many other states, including Virginia, North Carolina, West Virginia and Ohio. The company is already a significant presence in South Carolina, operating efficiently and safely a system of 1,500 miles of natural gas transmission lines.

I think the facts demonstrate the best option for South Carolina's electric and gas customers and for the continued economic health and growth of our state is the combination of SCANA and Dominion Energy. Efforts aimed at blocking this combination or making it more difficult carry long-term hardships for the energy future of the state.

Silas Ferguson  
Cheryl Ferguson

Dear Public Service Commission

South Carolina confronts a crisis that threatens the energy security of our citizens, as well as the health of our state's economy. I believe South Carolina has a clear way to avoid crisis and ensure that our state's electric and gas customers have excellent service and affordable pricing in the future. That solution is the proposed combination of Dominion Energy and SCANA. It will end the uncertainty that poses a threat to our economic growth.

Dominion Energy's proposal includes immediate and long term relief in the form of \$1.3 billion in cash payments to homes, businesses, churches, schools, local governments and other customers served by SCE&G.

Customers would also see an immediate electric rate reduction of at least 7 percent. Dominion Energy would absorb more than \$1.7 billion of the remaining V.C. Summer debt and reduce the current timeframe for cost recovery by forty years. This is the best proposal and path forward for South Carolina.

Thank you for the opportunity to share my support.

*Glenn Doyle, Jr.*
